## FPG FIRE & SECURITY SOLUTIONS

The best protection for guests and staff  
across the **hotel and hospitality** sector

*“Striving for continuous improvement in quality, value and performance.”*

## Who we are

At FPG our world class fire and security solutions have been protecting the buildings, property and staff of leading UK organisations for over 30 years. From our network of regional offices we have designed, installed, commissioned and maintained integrated systems at over 2000 sites across the UK. Our partnership with the Scutum Group in 2017, a €190m turnover organisation, creates opportunity to expand our customer portfolio even further.

We strive for continuous improvement in quality, value and performance, recognising our customers require our systems and services to become more efficient, as we respond to the growing demands of our fast changing world.

Trust is earned by doing what we say we will, demanding care, consistency and competence, committing us to high ethical standards and is central to who and what we are. We deliver on our promises, meeting our customers’ requirement for quality, delivery, responsiveness and reliability.

# Hospitality & Heritage

FPG protects and secures some of the most prestigious hotels and venues across the UK where customer service and safety are paramount. Our intelligent, integrated fire and security solutions protect employees, guests and assets and we take pride in the full management of all security and fire system projects. We design, supply, install and commission integrated fire and security systems as well as provide ongoing maintenance services.

“

*Based on our requirements FPG ticked all the boxes and provided us with a personal service from the account manager all the way to the engineers. This is the same level of service that we aim to give to our guests.”*

**Mark Jacob**  
Security & Facilities Manager  
The LaLiT Hotel, London

“

*I believe effective communication and trust are the most important attributes of an Account Manager. Hotels need a prompt call out service with professional Engineers who understand the complexities of such environments.”*

**Daniel Meeajane**  
Business Development Manager  
FPG, London & the South East

# Our fire & security solutions

## Fire detection, alarms and suppression

A comprehensive range of highly resilient fire detection, alarm and suppression systems, including intelligent control panels and audio/visual alarms. **Great Scotland Yard Hotel** - FPG installed the full fire alarm system. The hotel, previously a police HQ, is now completely refurbished into a five star hotel.

## Emergency lighting

In the evacuation of a building every second counts. Our intelligent LED emergency lighting guides people towards the nearest exit, brightly illuminating corridors, stairways and exits, ensuring a safe evacuation. **The LaLiT Hotel** - FPG provide maintenance and servicing of emergency lighting and fire alarm systems.

## Fire stoppage and fire doors

Our fire safety specialists conduct surveys to ensure adequate protection is in place to allow for an effective evacuation of the property. **Corus Hotel Hyde Park** - FPG installed the fire stoppage throughout the 200-year-old listed Georgian mansion with 388 Rooms.

## Dampers and smoke vents

Dampers are designed to stop the spread of fire through ducts, walls, floors and ceilings and regulate air flow. Smoke vents facilitate the extraction of smoke in the event of a fire and can open automatically when smoke is detected. **The Langham Hotel** - FPG maintain and service the Dampers and also conduct all remedial works.

## Fire risk assessments

The Scutum UK Group provides fire risk assessments that are conducted in accordance with PAS 79, a national standard, are audited in line with ISO 9001 quality management system, meeting the requirements of all current UK fire legislation. **Hengrave Hall** - FPG provided fire training for all staff including refresher training. We also conducted the fire risk assessment at their sister venue **All Saints Hotel**, a spectacular Hotel with great facilities.

## Intruder detection

Intruder alarms are undoubtedly one of the most effective and proven deterrents against criminal activity on the market today. We offer comprehensive installation and maintenance services for all major alarm panels and can offer remote video monitoring.

## IP-based CCTV

HD CCTV is fast becoming the standard, with a huge range of camera options to suit all budgets and applications. We present a choice of the world's leading open architecture IP based platforms and Video Management Systems that are both scalable and reliable. New HD IP cameras can be added to work alongside a legacy investment.

**The Hilton Bankside Hotel - FPG provide maintenance of the CCTV system.**

## IP-based access control

Whether a system upgrade or an entirely new system, we have a range of innovative solutions with advanced features and integration capabilities with intercom or PAVA (Public Address and Voice Alarm) systems, other security systems and HR or IT personnel databases.

## SMS and integration

Today's complex security challenges demand a smarter range of integrated security technologies to achieve maximum security effectiveness and ease of use. Fire risks, alarms, CCTV, access control, intruder detection and visitor management can all be managed and monitored within one integrated SMS, across multiple geographic locations.

## Maintenance and service

We offer tailor made short and long terms maintenance services for all types of systems. Our track record for providing excellent customer service is a rarity in our industry and we make sure the systems we maintain are assessed at regular intervals and continue to be as robust and reliable as the day they were commissioned.

# Our capabilities

## Single-source provider

FPG is a single-source provider for complete integrated fire, security and safety solutions. Our tailored solutions meet the demands of some of the UK's leading organisations.

### UK wide, local support

FPG operates nationally from offices in London, the Midlands, the North and Scotland, strategically positioned and fully equipped to support our customers, deal with issues quickly and offer the best possible solutions to meet their needs. We are proud of being able to provide and combine a national reach with a personal service.

### 24x7 Call Out Service

Our 24x7 emergency service team responds within 4 hours. This in combination with our strategically positioned regional offices and dedicated engineers for each site, ensures that we are never far away and ready to quickly support our customers, deal with issues and guarantee peace of mind.

### Future proof and scalable

We stay at the forefront of fire and security technology to ensure that the systems we install are able to withstand tomorrow's evolving threats and have the flexibility to upgrade, evolve and extend across multiple sites, to adapt to the future needs of our customers.

# Diverse supply chain

FPG has strong partner relationships with leading security systems manufacturers in order to provide best-in-class solutions through a diverse supply chain, ensuring that we install the most innovative security products and systems to meet the needs of our customers.

## Tailored solutions

There is no one size fits all solution. Our tailor made, bespoke systems are designed to meet the individual needs of our customers, whether they are a large or small business across all market sectors throughout the UK.

## Long term relationship

A commissioned system is only the beginning of a relationship with FPG. Customers place their trust in us to deliver on our promises and our dedication to customer service has resulted in us forging strong ongoing relationships with large leading UK organisations, some of which span decades.

## Innovative and integrated

We pride ourselves on solving problems with innovative and forward thinking products. we are happy to demonstrate the very latest and greatest integrated fire and security system technologies to our customers.

# Contact us

FPG operates nationally from offices all across the UK, fully equipped to offer the best possible solutions. Our service team's 24x7 response throughout the year combined with our IT infrastructure and expertise, guarantees peace of mind and ensures continuous improvement in quality, value and performance.
