

FIRE AND SECURITY FOR FOOD & BEVERAGE

A proven track record in protecting some of the UK's most prestigious distilleries.

The production and storage of alcohol in particular poses a significant fire risk. High hazard atmospheres created in the production process can require our ATEX certified solutions. Our very early smoke detection systems protect tightly packed, high value, flammable goods that need to be stored for long periods before being distributed.

- NORTH BRITISH DISTILLERY
- CHIVAS BROTHERS
- GLEN TURNER COMPANY
- WILLIAM GRANT AND SONS
- SIMPSONS MALT
- INCHDAIRNIE DISTILLERY
- BAKKAVOR GROUP
- ABP FOOD GROUP
- THE ICE CO

ACCESSIBLE YET SECURE

Theft and vandalism are significant security challenges in areas that are designed to be easy to access for loading and unloading of goods, yet also store high concentrations of high value goods. Our intelligent, networked security solutions protect distribution, providing auditing of access and allow for efficient authorised access for the loading and unloading of goods.

ACCREDITED & CERTIFIED

FPG is fully accredited and ATEX certified, providing solutions since 1989. Our in house team of consultants, designers, and fire risk assessors ensure that the systems we install are best-in-class and comply with legislation.

COMPLETE FIRE & SECURITY SOLUTION

FPG is a single-source provider for fire, security and safety solutions. Systems can be networked and integrated, improving ease of use and streamlining building operations.

A LONG TERM RELATIONSHIP

The installation of an FPG system is only the beginning of a long term relationship. Our maintenance agreements, 24/7 emergency service and local support ensure the long term safety and security of your site.
