

FIRE AND SECURITY FOR INDUSTRY

Fire detection & suppression systems, protecting life and assets in the most hazardous of installations.

FPG's fire and security solutions provide the highest level of protection for a wide range of prestigious UK industries. Industrial facilities present a greater potential fire and security risk due to higher concentrations of high value machinery, combined with flammable liquids and atmospheres. Very early fire detection and intelligent security systems are crucial in preventing massive potential loss.

- BAE SYSTEMS
- BABCOCK ROSYTH
- UNILEVER
- GE CALEDONIAN
- NORBORD
- MITSUBISHI
- QINETIQ
- CALACHEM
- ARCONIC
- JAGUAR LAND ROVER

HIGHEST LEVEL OF PROTECTION

FPG's intelligent, networked access, CCTV and intruder security systems provide the highest level of security with reporting tools for full auditing of access in and out of secure areas.

ACCREDITED & CERTIFIED

FPG is fully accredited and ATEX certified, providing solutions since 1989. Our in house team of consultants, designers, and fire risk assessors ensure that the systems we install are best-in-class and comply with legislation.

COMPLETE FIRE & SECURITY SOLUTION

FPG is a single-source provider for fire, security and safety solutions. Systems can be networked and integrated, improving ease of use and streamlining building operations.

A LONG TERM RELATIONSHIP

The installation of an FPG system is only the beginning of a long term relationship. Our maintenance agreements, 24/7 emergency service and local support ensure the long term safety and security of your site.
