FIRE AND SECURITY FOR TELECOMS & MEDIA

Protecting the staff, assets and continuity of service for some of the largest telecommunications providers.

FPG has a strong customer base of some of the largest telecommunications and media providers across the UK. In an increasingly cloud-based modern world where we are always-online and always connected, it is critical to have continuity of network service. Our fire and security solutions protect staff, valuable assets and minimise interruption of service.

VERSATILE & SCALABLE

From local theatres to internationally renowned broadcasters, FPG have a fire and security solution to fulfil your unique requirements.

ACCREDITED & CERTIFIED

FPG is fully accredited and certified, providing solutions since 1989. Our in house team of consultants, designers, and fire risk assessors ensure that the systems we install are best-in-class and comply with legislation.

COMPLETE FIRE & SECURITY SOLUTION

FPG is a single-source provider for fire, security and safety solutions. Systems can be networked and integrated, improving ease of use and streamlining building operations.

A LONG TERM RELATIONSHIP

The installation of an FPG system is only the beginning of a long term relationship. Our maintenance agreements, 24/7 emergency service and local support ensure the long term safety and security of your site.
