

FIRE AND SECURITY FOR TRANSPORT

Helping transport operators to provide safe passage for millions of people and valuable cargo.

Passenger safety and service performance are vital to the public and to the success of transport operators. FPG's fire and security solutions help provide safe passage for millions of people and valuable cargo. Our fire systems protect high hazard environments that require ATEX certification and our intelligent security solutions can detect threats to life and safety as early as possible.

SAFETY & SERVICE PERFORMANCE

We understand that safety and performance are critical to public perception and the success of transport operators. FPG's fire and security solutions help to increase operational efficiency, ultimately getting customers and goods to their destinations without service disruptions.

ACCREDITED & CERTIFIED

FPG is fully accredited and certified, providing solutions since 1989. Our in house team of consultants, designers, and fire risk assessors ensure that the systems we install are best-in-class and comply with legislation.

COMPLETE FIRE & SECURITY SOLUTION

FPG is a single-source provider for fire, security and safety solutions. Systems can be networked and integrated, improving ease of use and streamlining building operations.

A LONG TERM RELATIONSHIP

The installation of an FPG system is only the beginning of a long term relationship. Our maintenance agreements, 24/7 emergency service and local support ensure the long term safety and security of your site.
